

# Jitendra Kumawat

Laravel Developer · PHP · MySQL · REST APIs

Jaipur, Rajasthan, India    jitujitendrakumawat988@gmail.com    linkedin.com/in/jitendraghodela    jitendraghodela.me

## SUMMARY

Laravel Developer with 1 year of professional Laravel experience and 4+ years in PHP development starting from BCA. Built business applications, CRM systems, and WordPress solutions — including a custom theme, plugin, and a Travel CRM actively used by sales and operations teams. Comfortable across the full backend stack with hands-on exposure to MERN as well.

## SKILLS

|          |                                              |
|----------|----------------------------------------------|
| Primary  | PHP, Laravel, MySQL, REST APIs, Git / GitHub |
| Frontend | JavaScript, HTML, CSS, Bootstrap             |
| CMS      | WordPress (Theme & Plugin Development)       |
| Other    | React, Node.js, Express, MongoDB (MERN)      |

## EXPERIENCE

**Laravel Developer**

Jun 2025 – Present

Qubitron Labs · Jaipur

- Backend development with PHP/Laravel on business-facing applications
- REST API design and integration across internal services

**Web Developer**

Mar 2024 – Jun 2025

SERP DIGI SOLUTION · Jaipur (Self-started)

- Started and ran own web development venture delivering PHP, Laravel, and WordPress projects for clients
- Delivered custom web solutions and business applications across multiple engagements
- Built and maintained MySQL-backed dynamic sites and internal tools

**WordPress Developer**

Mar 2024 – Feb 2025

Kingsland Holiday (Parallel to SERP)

- Developed a custom WordPress theme tailored to travel business requirements
- Built a custom WordPress plugin to extend site functionality
- Designed and implemented a Travel CRM (later migrated to Laravel) covering lead management, quotations, hotel data, itineraries, and sales workflows

**MERN Stack Developer**

Mar 2023 – Aug 2023

WsCube Tech · Jaipur (Training + Projects)

- Completed MERN Stack certification with hands-on project work in React, Node.js, Express, and MongoDB
- Built multiple projects applying full-stack JavaScript development skills

**Freelance Web Developer**

Jul 2021 – Mar 2023

Self-employed (Alongside BCA)

- Built landing pages and small web projects for clients while pursuing BCA
- Strengthened PHP fundamentals and began hands-on Laravel learning through real projects

## PROJECTS

**Travel CRM**

Personal Project · Actively Maintained

End-to-end CRM built for a travel business's sales and operations team. Covers lead management, quotation generation, hotel and supplier management, itinerary building, and process automation. Actively extended with new features to support daily workflows.

Laravel

PHP

MySQL

REST API

Process Automation

**WordPress Theme & Plugin — Kingsland Holiday**

Client Project

Custom WordPress theme and purpose-built plugin for a travel agency, delivered as part of a broader engagement that also included CRM design.

WordPress

PHP

Custom Theme

Custom Plugin

**Misc Projects**

Personal / Practice

To-do list app and various HTML/CSS landing pages built to practice frontend layout and UI fundamentals.

HTML

CSS

JavaScript

## EDUCATION
